

## [Help With Pet Vaccinations](#)

Twice a year Gaston County Health and Human Services, assisted by Gaston County Animal Care and Enforcement Division, offers a free rabies vaccination drive-thru clinic. It is usually announced in the local papers and is limited to usually 200 vaccinations on a first come first serve basis. You can contact Animal Care and Enforcement to confirm announced dates and times.

Check with your vet to see if they can help with vaccinations and costs.

Gaston Low Cost Spay/Neuter Clinic offers vaccinations when pets are scheduled to be spayed or neutered. They have recently begun a rabies vaccination program. Call 704-868-4673 to see when and where the next clinic is being held.

Contact your local feed and supply stores. Many times, this type of store will host several pet-friendly programs such as vaccinations, pet exams & treatments, and adoption events.
